

OBE RANKINGS 2021

Education is what survives when what has been learned has been forgotten.
While a systemic resilience approach to education is required, amidst all the technological advancements, we realize that students have to be educated, but they have also to be left to educate themselves. The OBE Rankings 2021 recognizes the efforts continuously undertaken by Institutions for achieving excellence in quality education, and implementation of the latest teaching-learning methodologies, including the outcome-based education models.
