Dear Sir,

ISRO has taken up a major initiative of "Space based information support for Decentralised planning (SIS-DP)" which aims to empower Panchayati Raj Institutions (PRIs) and stakeholders for participatory decentralized planning process at gross-root level in the country.

As a part of this initiative, satellite images as well as a set of thematic maps have been generated for entire country. ISRO has developed a smart phone based mobile application and Bhuvan Panchayat portal to enable geo tagging of Panchayat level assets.

Academic Institutions comprising experienced faculty and enthusiastic youth in the country have shown interest to support this social endeavor of geo tagging of Panchayat level assets (Asset Mapping) under the ISRO's new project on "Empowering Panchayati Raj Institutions Spatially (EPRIS)".

We at ISRO are pleased to inform you that your Institute (Vignan's Foundation For Science, Technology & Research University, Guntur) have been selected for taking up the asset mapping of 56 Panchayats in Krishna & Prakasam District of Andhra Pradesh State. Int. J. of Performability Engineering (<http://ijpe-online.com/#axzz4OphE7enB>)**Title: IJPE 745.17:** Vibration Analysis of Shaft Misalignment and Diagnosis Method of Structure Faults for Rotating Machinery

Abstract: In this paper, two kinds of dynamic models for shaft misalignment of rotating machinery are proposed for vibration analysis and diagnosis of the shaft misalignment state. In order to obtain the solution of the dynamic models and clarify the vibration signal features measured in the shaft misalignment state, the calculation method of vibration forces caused by misalignments is also shown. The results of computer simulation and experiment using the same rotating machine are shown to verify the efficiency of the dynamic analysis method proposed in this paper. Finally, the method for distinguishing structure faults of rotating machines (shaft misalignment state, unbalance state and looseness state) is discussed by using symptom parameters and spectra of the vibration signal measured in these states.
