HOUSE OF ORATORS

Date: 09.01.2018

On a very positive and ambitious note, to learn something new, to do something worthy, the speaking arts club's induction took place. It started on 21st Dec 2017. About 25 members registered for the session and the club coordinators Yogitha, Arshad and Rahaman introduced themselves and gave a brief about the working of the club. All the members present were asked to introduce themselves.

Going past the introductory interactions of the club, the session took off with an activity aimed at giving humorous introduction of a person which was initiated by literary secretary SAC. It was an attempt to bring out the creativity and spontaneity in one's speech and was definitely group activating. All the members participated very enthusiastically.

The third session was attended by 13 members and was on the theme "Prepared speeches" which is considered as one of the building steps of the growth of a good orator where the speaker gets enough time to get the content generated which is something that we don't get in impromptu speeches.

The next sessions was on Group Discussion. The club members were told the do's and dont's, the thing to be taken care and the judging criteria. It was followed by group discussion on "Is the use of internet killing human creativity" to which the club members responded really well with good involvement from everyone.
