## UTSAV -2K19

Date: 20.04.2019

U Block OAT

The night screen had hung down; the celestial space had become pitch black, the glittering and luminous diamond-like stars had become natural adornments, filling the empty spaces in the dark sky while the students at U-Block of VFSTR on 20<sup>th</sup> April relishing the memories spent throughout the year beneath the same sky by celebrating their Annual Day- UTSAV.

This Academic year has indeed been an incredible one. Culture and traditions have been integral part of our nation and VFSTR has always abided to this very fact. The VFSTR held the national flag despite the pouring rain on the Independence Day and marched with our heads high on the Republic Day. These two days will forever be remembered in the history of Vignan for the spectacular show of sheer patriotism. VFSTR has incredibly managed to keep traditions alive. The Varalakshmi Pooja, the Utti Utsav on the occasion of Janmastami, the Ramzan Celebrations, the Bathukamma festivities, the Dandiya Raas, the Semi-Christmas, Sankranthi Celebrations and the Felicitation on Ugadi have all been joyfully celebrated on the campus. From flying kites on Sankranthi to breaking pots on Janmastami to singing carols on Christmas to performing the rituals of Lord Lakshmi to Rangoli making, the varsity has done everything that defines our Motherland. The Telugu language day celebrations are another great reminder of how true we have been to our roots.

They say nothing is more divine than serving our fellow beings. In response to the Nation's call to help Kerala, VFSTR donated 25 Lakhs to the victims of the 2018 floods. Besides, donating money, a team of 23 students and 2 faculty members set out on a relief mission to support the victims. VFSTR's NSS team too has also shown sheer dedication in serving the humankind by organizing a blood donation camp in which a whooping number of 430 students volunteered to donate blood. It's extremely proud to place on record that VFSTR students are responsible and compassionate civilians.

The institution has always prioritized knowledge over rhetorical studies and mechanical test taking. Encouraging student community to network, collaborate and together transform the world around them has always been the prime mission. Srujanankura was one such effort to promote innovation among the students. And all the students were extremely successful in doing so by displaying more than 800 projects. It was really amazed by the technical knowledge and innovation of the students. Hosting Anveshan- a student research Convention of South Zone Universities was another big step taken to promote excellence among students.

VFSTR allotted 13.6 Crores as fee waivers and 1.1 Crore rupees, as a reward to the students who have performed exceptionally well in the previous academic year and 267 students have received the scholarships. Students have exceedingly excelled in both curricular and co-curricular activities. VFSTR has been providing a platform for students to exhibit their inherent talents. Various contest for dance, music, theatre arts, writing, oration, painting creative arts and entrepreneurship, summing up to more than 40 competitions, were conducted round the year and each contest has been a reminder as to how multi-versed the students are.

The Student Activities Council (SAC), E-cell (Entrepreneurship Cell) and all other student bodies have put in great efforts to bring out the best in their fellow companions, by being the backbones of all the events conducted in the campus. Every such student who has taken out time from the curriculum to benefit the student community is an achiever. TEDx VFSTR has been the Biggest TEDx event in South India.

The National Sports Day celebrations and the Sports Fete 2K18, a National Level Sports festival are two big events organized by the varsity to promote spirit of sports among the students. Students from around 60 institutions and students of VFSTR were successful to get laurels to the varsity. The NCC cadets too have made Vignan proud by successfully completing the 'B' and 'C' certificate exams.

VFSTR has placed it on record that this academic year has indeed been an incredible one. And it is because of the commendable talent and hard work of the students that VFSTR has spent 1.6 Crores throughout the year students' holistic development. UTSAV 2K19 is to where all of this concludes.

## **International Women's Day**

08 March 2019

VFSTR had celebrated a day called proudly as "International Women's day" at the Sangamam Seminar hall on 8<sup>th</sup> March. It celebrates the unique strength of women that is hard to find in the entire human existence.

Smt. C. Sharada Prabhakar, Ms C. Sharada Prabhakar, Scientist, Deputy Technology Director, Advanced Composite Centre, DRDO-Advanced Systems Laboratory, Hyderabad was the chief guest of the day. G. Swaroopa Rani, DSP and Dr. A. Krishna Kumari, Former Professor of Law in Lal Bahadur Shastri, National Academy of Administration, Mussorie were the guests of honour.

C. Sharada Prabhakar addressing the students on the occasion said that the answer is not for men and women to try to be alike. All men and women must be themselves, realizing that God has given each of us unique abilities with which to pursue our goals, and that our primary responsibility is to take full advantage of those abilities.

Speaking on the occasion, Registrar, Cmde. Dr. M.S Rangunathan lauded the Women Empowerment and Development Cell of VFSTR which celebrates every function in a smooth and grand way.

"Let's celebrate the incredible strength of women to strengthen the foundation of the society," he concluded.

Dr. A. Krishna Kumari who was one of the guests of honour highlighted the Section - 497, Adultery law of Adultery Indian Penal Code among the gathering. She said that man and woman represent two forms of divine energy; they are the male and female elements of a single soul.

She also said that for a human being to lead a total life, he or she must have both forms of energy: the power of strength and the power of subtlety; the power of giving and the power of receiving. Ideally, these energies are merged seamlessly.

**VIGNAN'S**

Foundation for Science, Technology & Research

(Deemed to be University)

-Ext'd. u/s 3 of UGC Act 1956

Men are physically stronger. By nature, they are usually more aggressive and externally oriented. In contrast, a woman usually embodies the ideal of inner dignity. Some people confuse such subtlety with weakness; in truth, it is stronger than the most aggressive physical force imaginable, she added.

Swaroop Rani speaking on the occasion said that true human dignity does not shout; it is a strong, steady voice that speaks from within. The nature of a woman, while subtle, is not weak. And the nature of a man, while aggressive, is not brutish. For man and woman to be complete, they must each possess both energies.

She also informed the girl students to be cautious in the society. She also said that girls should be mature enough to tackle the situations. Being a mature person is behaving as a responsible and dignified person, she added.

International Women's Day is a global day and is celebrated in most parts of the world to take conscious cognizance of the unprecedented achievements of women, irrespective of which section of the society they belong to. It was the labor moment of the twentieth century in North America that came out to be the time when this day emerged. That was the time which proved to be a turning point in the history of womanhood and her valour, both in the developing and the developed countries. The women's right has proved to be a magic wand in terms of building a support system for the rights of women and their participation in spheres including politics and economics.

The International women's day calls for the equality of women in the society where they are often not given that right that, she actually deserves. But thankfully, since the inception of the IWD, the scenario has changed quite rapidly to address many issues in the related field. International women's day has not any affiliation from a particular group or organization rather it brings together the reputed women's organizations, Governments of various countries and other organizations that are from the similar school of thought.

## **Anveshan**

22.02.2019

### **Anveshan to ignite young minds**

Anveshan -South Zone Inter University student research convention (22<sup>nd</sup> & 23<sup>rd</sup> Feb) has officially inaugurated on Friday by Renowned scientist Guntur Nageswara Rao, Chairman of Atomic Energy Regulatory Board(AERB).

Around 30 universities from South India had participated in these two mega events of VFSTR.

#### **Human mind is always innovative**

Mr.Nageswara Rao said humans have a unique power, the power of thinking, the power of innovation: encompassing intellectual, emotional and spiritual intelligence.

Who can innovate? Can any common person innovate, can you innovate? Anyone can innovate. The answer lies in the power of human imagination. It all starts with a single innovative thought in our conscious mind, which can transform into an action with the right level of passion, and into an impactful outcome with the right level of effort, said Mr. Nageswara Rao.

Continuous practice of paying attention to the thoughts and ideas soon results in innovation being a habit of our sub-conscious mind, eventually to becoming an innovative personality. Research indicates that an innovative mind is not necessarily born, it can be developed through techniques of observing and thinking, he added.

#### **Non-renewable energy will fuel country soon**

AERB chief said that the power generated from non-renewable energy resources like wind, solar and water would fuel the nation soon and the country was poised to become the leader in electricity generation.

“Atomic power plants could be set up after adhering to the conditions of the Atomic Energy Regulatory Board, which takes into consideration soil condition, local conditions and pollution emission levels,” he added.

He dismissed rumours that radiation would cause cancer and said he had been working in the fields related to radiation for over 30 years and remained healthy.

### **Learn the technique of learning through Projects**

Vice Chancellor, Dr. M.Y.S Prasad, Former Director of ISRO said that these type of events are to create the temper of competition and make the students understand the concept of Project-focus learning. He also said that R19 curriculum will have a weightage of 25 credits out of 175.

Speaking on the occasion, Chairman, Dr. L. Rathaiah proudly informed the gathering that the project of EEE department got the patent rights from USA which no other local universities have the foreign patents.

He also said that, these kinds of events not only develop scientific temper among the students but also develop their social skills.

Dr. Amarendra Pani, Director I/C, and Dr. Usha Rai Negi, Assistant Director, Research Division, AIU, New Delhi also took part in the event.

## **Switch on Cultural Night with VFSTR**

The best way to enjoy art, music and culture is in the dark. After all, before a movie at the cinema the lights are turned off, before a performance theater also turns off all lights, before orchestra or group performance concert hall are darkened. Only darkness lets us dive into the culture, also it releases our imagination and let us to enjoy the surrounding processes.

Often transcending different languages, students' performance from the native and sister institutes left the audience spellbound and asking for more. Singing and dancing along to one soulful number after another, the sheer energy in the U-Block OAT (first day) and Convocation Hall (second day) was indeed palpable.

The two day cultural night closed with all the participants hitting the stage and dancing to some great music. The cultural night was full of discoveries, fun and loads of laughter to let the attendees unleash their wanderlust explore the extravaganza and take back memories to last a lifetime.

## **Srujanankura'19**

**21.02.2019**

There's one time in the year, when for college students all roads don't lead to the classrooms. Yes, we are talking about the Srujanankura- National Level Tech Extravaganza '19 (sponsored by ISRO and co-sponsored by daikin, Ultratech Cement, Paramount Building, ECIL, Kveera Furniture, Santhi Art Gallery & Kanakadurga Agencies). VFSTR has transformed itself and moves away from its mundane routine, while also opening the doors to students from across the country.

Students get the chance to interact with others, learn from them and have a whole lot of fun. And all of this was also seen at VFSTR's Srujanankura- 2k19(21<sup>st</sup> – 23<sup>rd</sup> Feb). The first day of the Srujanankura fest saw students participating from more than 20 institutes, 3000 registrations and 477 visitors.

### **Exceptional, Exciting and Enthralling**

Every college fest is a getaway for the students from their classes and assignments. Instead, they learn more about organizational skills and leadership. But not to forget, all of it is done with a lot of fun.

VFSTR( Deemed to be University) is in the rural area of Vadlamudi, on the southeastern part of Guntur City region and has been bringing out the potential students with a sense of excellence, strong social commitment and a passion for value system and Srujanankura is one of the many steps in this regard for providing an all-round education to the students.

Keeping the same in mind, this year's Srujanankura-19 is Exceptional, Exciting and Enthralling. From events like Project Expo, Food Stalls to a plethora of cultural managed to keep all the participating students excited.

Speaking on the first day of the fest at an informal meeting, Vice Chancellor Dr. M.Y.S Prasad appreciated the efforts put in by the students for organizing Srujanankura and said, "Competition during Srujanankura helps nurture the exciting culture of VFSTR. VFSTR prides itself in creating leaders that are well-rounded and many events are a reflection of the well-roundedness of our students".

"The learning that happens at a fest, be it the experience of being a team player, is no match to a classroom atmosphere. It builds the feeling that you're part of the

college. You'll find yourself in moments like these, your interests, culture, fine arts says, Shabana of III ECE of VFSTR.

Then there are students who're just finding their way, like Aishwarya, a first year student of Vignan's Nirula, looking forward to fests for a possible direction. "I've attended three fests at different colleges now. It was challenging to know to the standards I've to match up to. Having ambitions to lead and organize such fests myself, I felt it necessary to be a part of them."

## 70<sup>TH</sup> REPUBLIC DAY CELEBRATIONS

Dt. 26-01-2019

Venue: U Block Ground

Time: 08:30 AM

Republic day was celebrated in VFSTR with the patriotism filled around. It started with March past done by the NCC Cadets. A speech was given by Ms. Krishna kumari and she said that she sees her child in every student and Motivation is very much important at every age and at every stage. We need strong determination and perseverance. She said the quotation by Edison "Opportunities are covered by several overall". She suggested students to wake up early and go to bed early. Make technology your slave but don't be a slave to technology. We need to manage time and we need to come out of our comfort zone. Your greatest asset is your mental ability and be ready to take risk. "Grab the present and don't repent over past" she added. Next speech was given by M S Raghunadhan, Registrar of VFSTR. He said that "Constitution is supreme to parliament. A day to celebrate indianness i.e.; spirit of India this year Indian government want to celebrate 150 th anniversary of M.K Gandhi and 100 th anniversary of Nelson Mandela both constitution one third of humanity. Constitution is not a paper it is living document". National pledge was given by MS Raghunadhan followed by speech by M.Y.S Prasad, Vice chancellor, VFSTR. He discussed about the president's speech and he said that "we need to work for country which is free of inequalities. Institutes like us need to develop technology so that it needs to help common man. We need to work for secular thinking and scientific thinking" he added. Followed the Speech of Satya Prasad, Rector. He compared present situation of India with past and he said that youth need to make India a developed country. Next cultural events were conducted which were mesmerizing. The guests were really impressed with the cultural performances. Many students attended from the Native institution, LARA Engineering, Pharmacy and junior colleges and marked the day colorful.

## PATANG UTSAV AND MASTER CHEF COMPETITIONS

**Date:** 10th January, 2018

**Venue:** U-Block OAT

**Time:** 4:00 PM

Patang Utsav and Master chef Vignan competitions in VFSTR University had took festive look. As a part of Sankranti Celebrations, our university had conducted kites and cooking competitions at U-Block OAT on 10<sup>th</sup> January, 2018. Active participation of students and staff from various departments made the events grand success. Unlike other competitions, these two had got more registrations which exhibit the enthusiasm in the students. Cooking is the art where "ingredients trump appliances, passion supersedes expertise, creativity triumphs over technique and spontaneity inspires invention". It is comprising cutlery with vessels becoming palette with colours as ingredients. By applying various shades of heat and pressure, one completes painting on the canvas of heart with strokes of love. This event was initiated by Dean of student affairs Ms. Rukmini mam and our beloved chairman Rathaiah sir. An active participation of 33 members which includes 10 faculty members took place in the 3 types of cooking methods like on Induction stove, no stove and on rice cookers. Various types of veg and non vegetarian dishes are cooked by the participants. Bread pizza, Sandwiches, deserts, Sheerkhurma, Dhumbiryani and other traditional recipes are the most common varieties made by them. The famous and traditional recipe made by telugu and kanadians, 'Ragisangati' stood an attraction in this competitions. An active number of male participation indicates the interest of them in cooking. Dr. N.V. R. Vikram and team from ECE stood first for "Daddojaganam" and second was K. 04.01.2019

Inspiring talks from a group of achievers and noted personalities across the country, thought-provoking ideas and a platform that saw many young minds come together were the highlights of the second edition of TEDx conducted at VFSTR on Saturday. The event was held under the motto 'Fly'. The series of discussions, involving the young and fresh minds on one side and the ripe and experienced on the other, made the programme as lively and informative as possible.

Each of the speakers at the event had initiated and brought about a change in their profession, sharing their perceptions of the changing paradigms of the world in a series of motivating speeches that left the young crowd captivated.

Addressing the audience, Jasti Chelameswar, former judge of the Supreme Court of India who was one the speakers, shares his views on dynamics of the present generation which is on a fast-track mode towards success.

"The youth today have withdrawn from the current governance because they are disillusioned by the ways of the leaders and the corruption that exists at every level. Raising voice against the problems in the society itself is being in Politics and need not contest in elections" he added. He urged the students to shun the disgruntled mindset, take into account the experiences of the past generation and find up ways to come up in life.

Dr. T. P Sasi Kumar, Founder of Siksha who train youngsters to face the multi-dimensional challenges they face in modern world told to work among disadvantaged boys and girls and counsels them on careers and opportunities available to them, exam stress and other such issues that they are not aware of.

Anna Durai, famous autodriver of India spoke on creative processes that help to channelise the best from within an individual. "I believe in passion; it is the basis of any creation. Do not allow your unique ways to disappear," said the autodriver

## Sports Fete

09.12.2018

Guest of Honor Dr. Narasimha Rao said, Sports are Inseparable part of life. Doing a physical activity produces a feeling of ecstasy, lightness, and power. This state of well-being which follows training is made possible due to the endorphins. They act similarly to opium or morphine. As natural drugs, they allow athletes to feel good and happy in their skin.

Furthermore, he said, there are variety of sports played accordingly by the people in various countries. National or international level sports competitions takes place in any country for any sports. Revolution comes in the sports field time to time and replaced by ashtanga or other forms of yoga. Playing sports help us in many ways all through the life.

All over 2000 students had participated in the event. The Sports Fete which was organized from 7<sup>th</sup>- 8<sup>th</sup> December held the audience spell-bound. Dr. Natarajan was the Chief Guest and Dr. Narisimha Rao was the Guest for Honour.

Speaking on the occasion, with his whimsical speech Dr. Natarajan motivated the students to involve in Sports.

He said, Sports are good for all of us in daily life as it involves us in common physical activities under healthy environment.

The environment of sports becomes very competitive and challenging for the sportsmen so they focus on the challenges put in front. Physical beauty of the person involves in making the humanity of him, he added.

Chairman of the varsity told that the management is planning and may implement for the next academic year to give the Credits to the students who attain the higher positions in the sports and games. Dr. M.Y.S Prasad, Dr. M.S Raghunathan and Dean students affairs were also present.

Fresher's day celebrations will help to allay fears among juniors and develop friendship among the seniors and juniors. Fresher's day is a kind of formal welcome to juniors by the seniors and faculty members. In fact, first year students get a chance to let their hair down and showcase their talent on this day. This event was started at 2:50pm with a prayer song and welcome dance followed by a splendid classical dance by Navya. The dance by the dance club with almost 25 members marked as the best performance of the day. The event followed by the review speech from first year HOD Dr.N.Srinivasulu. He said that most of girls were active as most of them took part in the event. Theatre arts '**Pelligola**' and '**Rojulumarayai**' were thought provoking. The event was followed by dance performances by Vinay and group, Dhanush and group and Sasikiran and group. Swaroop and B.Sweety were crowned as Mr and Ms Fresher. Our beloved chairman's speech is also a part of this event. He started his speech with advising them to perform the songs which were composed by them because engineer needs to be creative and innovative. The event wound up by distributing the winners and runners of all the competitions held. The event ended at 6:00pm.

## TEACHER'S DAY CELEBRATIONS

**Date:** 05.09.2018

**Venue:** Sangamam Seminar Hall

**Time:** 4:00PM

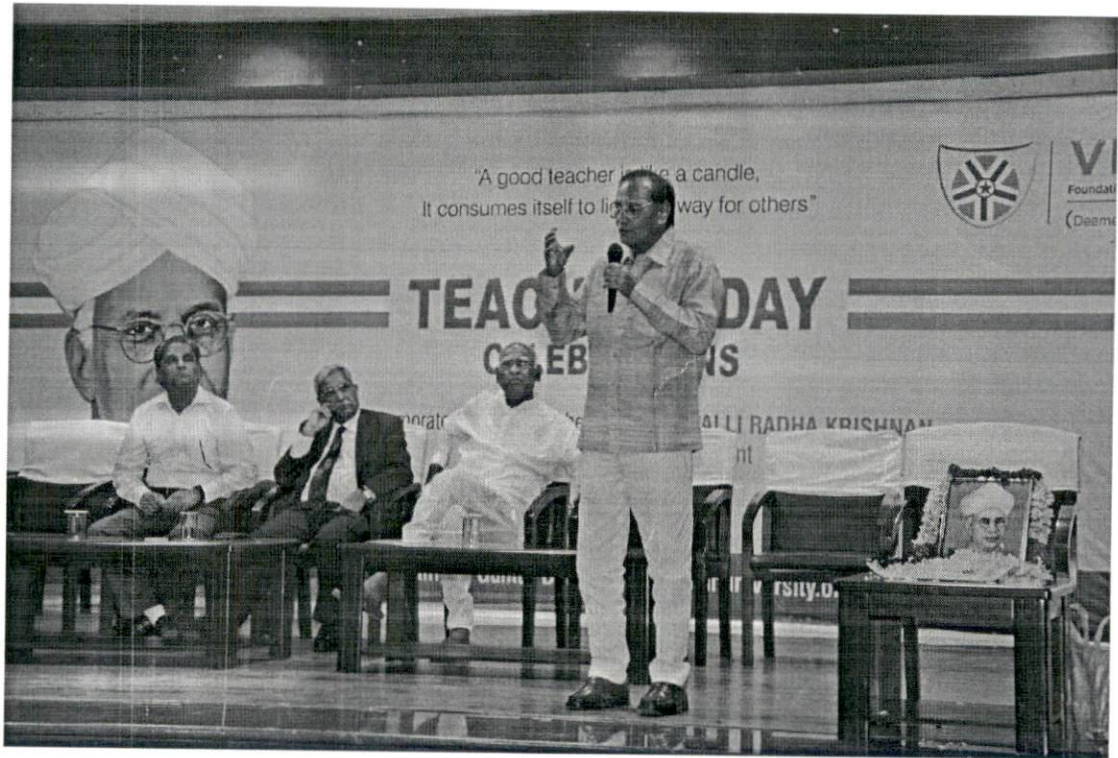

Every year throughout the country 5th September is celebrated as Teacher's Day. Students express their gratitude and appreciation for their teachers on this day. This day is dedicated to Dr. Sarvepalli Radhakrishnan – second President of India. The great academic philosopher and one of the most well known diplomats, scholar, president of India and above all a teacher. As a tribute to this great teacher, his birthday has been observed as teachers' day.

The Teacher's Day celebrations began with great pep at 4.00pm. Vice Chancellor, Dr.M.Y.S.Prasad articulated the importance of teacher's day in modern age. He said that "Teachers must be least selfish and should strive for scientific growth of students." Chancellor, Prof.K.Rama Murthi Naidu said that "Destiny of the country is shaped in a classroom. Good teachers explain, great ones inspire and motivate."The students were inspired by his valuable words. Chairman, Dr. Lavu Rathaiah then addressed the gathering with his warm wishes and said that "A teacher is remembered by his way of communication."

Dr. Sarvepalli Radhakrishnan is a great humanist. He will always be remembered for the way he treats people". He asked all the teachers to treat the students liberally. He also told the students that"There are at least 200 to 300 students of mine in every country. Their gratitude towards me brings out the best pleasure."The crowd was glued to his talk. Dr.P.M.V.Rao was then invited to deliver his views about Higher Education Commission 2018 act. He stated almost every aspect related to the act. Starting from what the act is about, Dr.Rao gave the gathering full view of consequences of the act. He also expressed his personal views.
