TRAINING DESCRIPTION AND OBJECTIVES

To introduce students the specific use of English for the purpose of English Proficiency is a student's ability to use English to make and communicate meaning verbally and in writing during their program of study. In this English Proficiency and Communication Skills (EPCS) programme, all applicants must be able to demonstrate they have the English proficiency required for their individual program.

Proficiency in English is usually defined by a combination of skills: reading, writing, listening, and speaking. These are measured by standardized and internationally recognized tests, such as Cambridge English Language Assessment which are usually marked on a band score. The Preliminary English Test (PET) is one of the Cambridge English Qualifications. It is the English language exam that shows you have mastered the basics.

English level B1 is the third level of English in the Common European Framework of Reference (CEFR), a definition of different language levels written by the Council of Europe. In everyday speech, this level would be called "intermediate", and indeed, that is the official level descriptor in the CEFR.
