

REJOICE 2018 “a Curtain Raiser event for Optional Clubs”

The curtain raiser events for Optional Clubs – REJOICE is planned to be organised on 28th July '18. The newly selected Student Activities Council and Sports Contingent members will be introduced to all the students on this occasion further the optional clubs will start functioning regularly. This event mainly promotes the talent of first year students and as a part of creating the interest towards it, an audition has been held on 25.07.2018 for different categories like anchoring, theatre arts, dance and music in which a total of 110 members have participated. These students will be guided by the university teams and will be given a chance to perform on the day of event. This event will be organised after the class instruction hours.

Some of the special attractions of the event are, our university alumni and faculty of Biotechnology Dr. Abraham is planning to release an audio song which was written and composed by his team, and Students will take part in a green initiative by preparing 1000-1500 seed balls for distributing to all the first year students. The seed balls are made of soil and compost with seeds incorporated in them. These can be thrown anywhere in dry lands which can survive themselves and improve vegetation.
